A story of Quito from every window

A new sustainable five-star hotel with a spectacular view of Quito and a design inspired by the natural beauty and cultural richness of the Andes.

GO Quito Hotel is strategically situated in the business and government district. It's just a 15-minute drive from the historic center of Quito and a 40-minute drive from the airport, facilitating easy commutes to and from your flights. Despite its central location, GO Quito Hotel provides a tranquil and restful stay.

A hotel with a soul

Every design detail is inspired by the beauty and history of the Andes region, from the vibrant textures evoking traditional Ecuadorian fabrics, to the local art and colors. The rooms stand out for being generously spacious.

Even the smallest ones offer 39 square meters, while the largest covers 143 square meters. The ample windows in our rooms offer an unparalleled view.

Cutting-edge technology to elevate your experience

All our rooms are equipped with 65-inch smart TVs, high-speed internet access, individual climate control, and smart curtains. The bathrooms are spacious and modern, with cutting-edge technology that ensures comfort and water efficiency.

Some rooms feature a hot tub, where you can delight in the panoramic view of Quito and the gentle Andean mist that caresses the city from above while enjoying the warmth of the water.

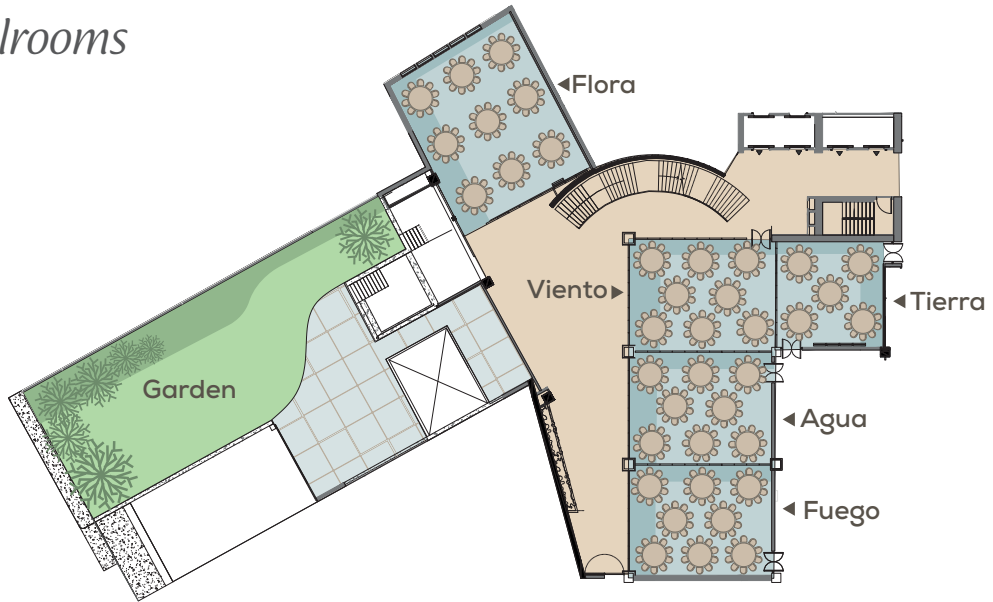

Work, learn, celebrate

GO Quito Hotel has a wide variety of facilities for events and meetings, including a 7880 sq ft open floor space with a 16.5 ft high ceiling. This space is highly versatile and easily adapts to any event and its audience. The hall's movable walls can be divided into five individual rooms. The acoustic solutions guarantee excellent sound quality for presentations, while adjustable lighting creates personalized environments tailored to each event's mood and need.

The event rooms are flooded with natural light and have direct access to a 1615 sq ft garden, located between buildings. Next to the garden, we offer 3715 sq ft for eight meeting rooms. Every detail harmonizes to foster productivity and creativity.

Pleasure, senses, and memory

We offer unforgettable culinary experiences that can be enjoyed in our bars and restaurants: Panecillo restaurant, Parallel lobby bar, and Alegria cafeteria. In each of these places you can enjoy an innovative menu focused on national and international cuisine, specializing in Latin American gastronomy, and inspired by Andean flavors and syncretism.

Feel good

Spa, swimming pool, sauna, steam baths, gym, and fitness area are products and services that complement the health and well-being experience of staying at GO Quito. Massages, water rituals, facial treatments, wraps, and exfoliations are based on the art of aromatherapy.

Sustainability at the heart of hospitality

At GO Quito Hotel, we are firmly committed to sustainability in all its aspects, and we strive to improve our practices, reduce our environmental impact, and create job opportunities.

GO Quito Hotel uses lighting technology and solar panels for energy efficiency. Our building's architecture and HVAC systems optimize temperature control, reducing energy demands. We have implemented efficient faucets, greywater recycling, and rainwater harvesting.

In our kitchens, strategic sourcing of local foods reduces waste and supports the local economy by partnering with numerous local vendors and producers, highlighting GO Quito Hotel's commitment to sustainability and community engagement.
